

W-Lock

Economic technics for compact excavators

Solid, simple construction

Turning of attachments (180°) possible

Double operating wedge prevents looseness between coupler and tool

Low investment costs, fair conversion costs for tools

Hydraulic power reversal - no jam when opening

Safe handling and permanent pressure on locking mechanism, no shims needed

Coupler and buckets fully made from WHD 450 special wear steel

For excavators up to 25 tons

Quality without Compromise.

Technical details

Advantages

Double acting wedge and permanent pressure at the locking cylinder prevent looseness.

Hydraulic power reversal, opening power is one and a half times more than locking power.

Wimmer quality in material (Hardox 450) and workmanship.

No mechanical safeguard needed

Safety-Box
with acoustic
locking control

APPROVED QUALITY

ISO 9001
CERTIFIED

CE CONFORM WITH THE
EUROPEAN STANDARD

Models/sizes available:

Model	WL 150	WL 200	WL 250	WL 350	WL 450
Exc. weight, to*	1,5 - 3,0	3,0 - 6,0	6 - 12	10 - 18	16 - 25

* This classification is only a rough recommendation, weights depend on individual parameters too.
